**Cable Secretary**

**Dissemination of Non-CIA Cables to WH**

[redacted] of WH called me today to express his personal appreciation and that of WH as a whole in the improved handling of non-CIA cables. It is [redacted] belief that since combining the functions of the OCR and FI/RI elements, the delivery of non-CIA cables to WH has been reduced by six hours.

[redacted] is considering writing a memo to Mr. Bissell expressing his appreciation in this regard.

My thanks to you and your office in making possible this improved service to WH.
